Don't let our history fade away.

Delaware's museums and libraries could lose our cultural heritage, as nearly 190 million historical items* have become endangered. Thanks to generous funding by the Institute of Museum and Library Services (IMLS), stewards of Delaware's precious heritage collections can learn how to catalog, preserve, and manage them, both for future use and present accessibility.

*A Public Trust at Risk: The Heritage Health Index Report on the State of America's Collections, IMLS
