# We geek
# Collection Connections

## How to play!

### Objective:
To fill up the board with creative ideas for programs using library collections and talents within your library & community.

### Step 1:
Take one of each card:

(*Wild Cards, see below)

*Collection Cards*  *Talent — What do you geek?*  *Opportunity*

### Step 2:
Using the Collection & Talent cards create a solution for your Opportunity (Challenge or Dream).

### Step 3:
Write your solution on a small sticky note and place it in a spot on the board.

**Placement of your solution:**
The "Collection Card" determines in which "Dewey Category" on the board you will place your solution. For example, if your collection card is 300s, then place your solution there.

**Challenge or Dream factor:**
On your Opportunity Card you will see a green cloud/dream or orange burst/challenge… that determines where on the *vertical* Maslow scale your solution will fall. ***See example chart next page.***

*Included is a list of items in the Dewey categories & Maslow levels to help you develop a creative solution.*

Dream…

**Teach a language**

Challenge…

**Solve Delaware environmental issues**

---

### *Wild Cards:
Picking a "Wild Card" gives you an opportunity to customize your solution. There are *Wild* cards in each grouping of cards (talent, collection, and opportunity). For example, if you choose a *Wild Talent* card, then you decide what the talent is. If you choose a *Wild Collection* card, then you pick what collection you want to use for this exercise.
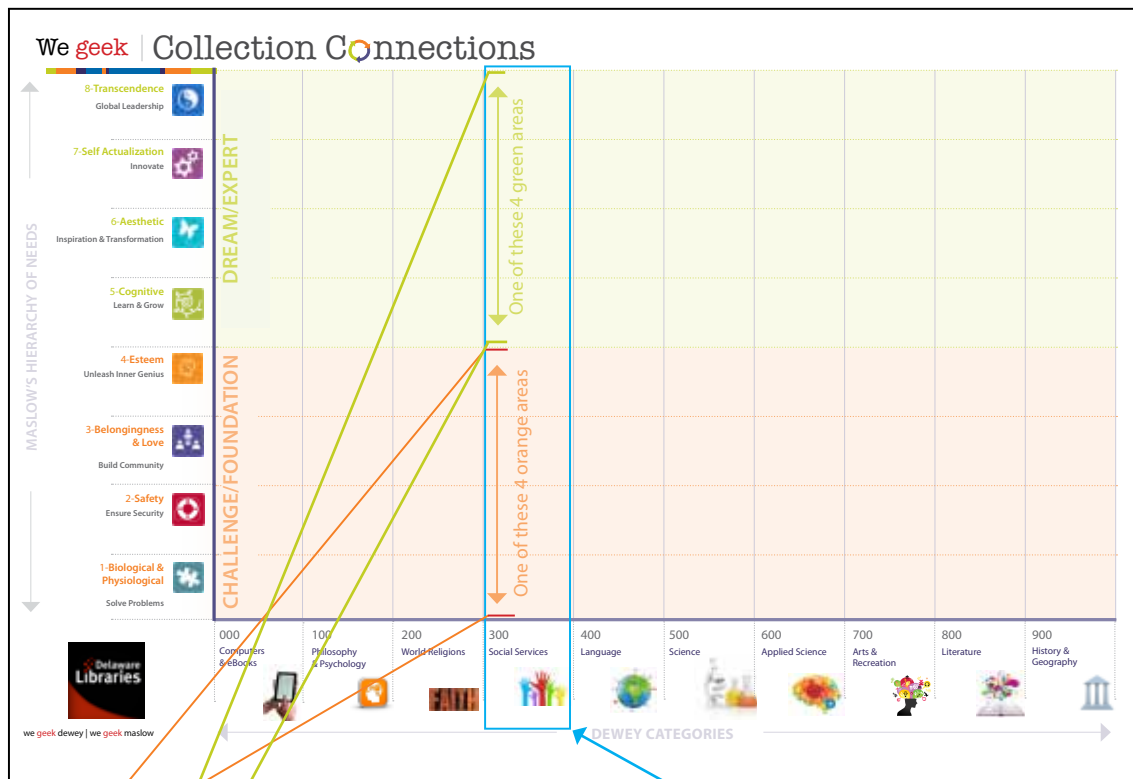

A talent *Wild* card looks like this when you turn it over. →

**Talent?**

*Note: A "Talent" can be someone/group from the community, the library, or you!*
