

Delaware Library Learning Journeys

“Unleashes horizons...”
“Gives rise to ideas for moving forward...”
“It’s another way to capture life.”
“Reading leads to digressions and inquiries.”
“Thank you for this!”

Delawareans are unlocking their inner genius and discovering their informal learning paths. Each participant receives a Learning Journal containing prompts that assist novices or experienced self-directed learners in tracking their reading and learning paths.

The “Between the Lines” blog encourages sharing self discoveries to build on the program’s tools, tips, and techniques for enhancing self-directed learning.
