

Adopted by the Council On Libraries February 7, 2013

Motion: The Council On Libraries encourages support for the Delaware Library Catalog eBook/eAudiobook collection, and recommends that public libraries invest a portion of their collection budget in the Consortium account toward sustaining and building this collection. The percentage or amount of print versus eBook holdings will continue to evolve over time. For FY2013 and FY2014, the recommended investment is 10% of local collection budgets.
